

## About The Sunrise Fund

The *SUNRISE FUND* at Stony Brook was established to raise awareness about childhood cancer and the special needs of such children throughout our communities. It was also established to raise funds to sustain cutting edge research, develop new treatment facilities and sustain family programs such as support groups, a School Re-entry Program and many others. For further information about the Sunrise Fund contact (631) 444-2899 or visit our website at [www.sunrisefund.org](http://www.sunrisefund.org).

## Rising Stars Talent Show

*Rising Stars* features children with cancer and blood disorders. The program provides an opportunity for these children to express themselves in theatre arts, while enhancing their sense of accomplishment, improving their self-esteem, and helping to regain their confidence. The program will also feature the siblings, staff and members of the community.
