1090	HAS 571	01	WTR	Issues in Health Care Management	On-Line	K.Feldman	

Classes begin January 2, 2007 – end January 19, 2007

**HAS 543 Health Policy**

Provides students with an overview of health care policy making principles. Specific formats will be analyzed using examples of local and national policies. Students will learn to develop selective health policies using case studies.

**HAS 571 Issues in Health Care Management**

The course is designed to introduce the student to the current trends in the United States health care system, including trends in medical-legal issues, labor relations, cost accounting and managed care. Models of progressive programs and health care delivery systems will be reviewed and discussed.
