Dear School of Medicine Alumni:

The Board of Directors of the Alumni Association of the Stony Brook School of Medicine, in cooperation with the Office of the Dean, is attempting to assemble a database of preceptorship opportunities for current and future students at the School of Medicine. Preceptorships will range from one to four weeks and would involve your full-time teaching in conjunction with your patient care and administrative responsibilities. In addition, we are exploring “virtual precepting”, involving alumni being available by telephone or email to answer medical students career and specialty questions.

1. Your name? _____
2. Your year of graduation from Stony Brook? _____
3. Your specialty? _____
4. Type of Practice (private/office based; university; hospital; clinic)

5. Where is your practice located? _____
6. Have you precepted medical students in your practice? _____
7. Would you be willing to precept a medical student in your practice in the future?
(If no, end of survey, thank you): _____
8. What features of a preceptorship can you offer a medical student? (didactic teaching, direct patient care, hospital rounding, contact with other practitioners):

9. Can you offer a medical student housing during his/her preceptorship with you?

10. Would you also be available to answer medical students’ questions by telephone or email?

Please help us make this project a success by completing the above questionnaire and return it to us via fax: (631)444-7672 or return email at alumnihsc@notes.cc.sunysb.edu

Once the preceptorship program is underway, we will notify you.
